## WHERE IT ALL BEGAN

---

The story of Smartperformance began 30 years ago in a small village up in the mountains of Switzerland. Today, we accompany global decision makers and their brands on the way to success, exclusive and on the highest level.

Three decades ago, in the picturesque Swiss village nestled high in the Alps, a group of visionary individuals came together with a shared passion for excellence and a drive to help businesses thrive. This marked the humble beginnings of Smartperformance, a company that would go on to make a profound impact on the global business landscape.

In those early days, Smartperformance was a small, tight-knit team operating out of a quaint office in the heart of the village. Their mission was clear: to provide unparalleled support and guidance to businesses and decision makers, helping them navigate the complex terrain of the corporate world and achieve their goals.

Over the years, Smartperformance's dedication to excellence and commitment to their clients allowed them to grow and expand their reach far beyond the Swiss mountains. They quickly gained a reputation for being a trusted partner in the world of business, offering tailor-made solutions and strategies that were exclusive and of the highest caliber.
